

Entirely pneumatic system
for powder high density and
low volume transport

NEA430

Max capacity 4 kg/min.

4 stroke operation

Transport pressure 0,8 bar

Powder recovery up to 3,5 mt.

Powder supply up to 30 mt.

Compact dimensions mm 400 x 540 x 220

CE  II 3 D c T6

PRODUCT CHANGE IN LESS THAN ONE MINUTE

The innovative cyclonic valve
allows an accurate and uniform
cleaning of powder residual in
body pump and transport piping
